LIST No. 21 1933

To Our Customers:

Our foremost thought has been Quality, and Dahlias has been a life-long study with us and is our Specialty.

It has not been our policy to send out our list broadcast, but to cater to those who appreciate Quality and Service.

Personal attention to all orders, large or small.

Prompt shipments.

Immediate reply to all correspondence.

Advice cheerfully given.

Hammonton, "The Hub of South Jersey," is located half way between Philadelphia and Atlantic City on both the Pennsylvania Railroad and the Reading Railroad. There are many express trains direct to both points as well as direct service to New York. Time tables will be sent on request and it will be a pleasure to meet you at the station. Our Nursery is just two and a half miles from the depot.

To Motorists:

The extensive "White Horse Pike," a concrete road in direct line from Philadelphia to Atlantic City will bring you within one half mile of our place. Ask any traffic officer or resident when reaching Hammonton and they will gladly direct you to our Nursery.

ROUTE 39—TRENTON TO ATLANTIC CITY

Upon Which We Are Located

One Mile left from White Horse Pike.

By Train—Blue Comet: New York to Hammonton. Two hours.

By Bus—Busses leave Philadelphia every half hour from Market, Juniper and Broad Streets.

Business Terms:

Cash Only. A special 5 per cent discount on all orders on bulbs and shrubs (packing free) of \$10.00 and over. No discount on C. O. D. orders. As to my responsibility I refer you to Dunns or Bradstreets Mercantile Agency. To the Peoples Bank of Hammonton, N. J., Clayton Title & Trust Co., Clayton, N. J.

Though it is seldom we fail to complete accepted orders we cannot be held responsible should we fail to do so.

This list cancels all previous lists and quotations.

Shipping Instructions: Always state by what method you want goods forwarded, otherwise I will use my best judgment.

Claims must be made immediately upon receipt of goods. All goods travel at purchaser's risk.

Non-Warrant: I endeavor to send out the best quality only, true to name, but I cannot guarantee results. If customers do not accept goods on the above conditions, they can be returned to me at once.

Parcel Post: If you wish parcel post shipment remit sufficient to cover charges. We will return any overamount that may be sent. Or extra bulbs if so desired.

Packing: Packing will be charged at cost unless cash with order. For the larger bulb orders we pack in uniform airtight sugar size barrels, which are charged at 65 cents each.

Minimum Orders. Not less than \$2.00.

Please Order Early and avoid possible disappointment. All orders are booked subject to previous sales.

Early Orders can be placed for later shipping, providing 25 per cent of its value is remitted when ordering. We cannot hold stock later than June 1st.

In the event that we are sold out of certain varieties, we will substitute to our best judgment, **unless ordered not to do so.**

If you are not thoroughly acquainted with Dahlias best suited for your purpose, write us and we shall be glad to help you to the best of our knowledge.

Digging and Storage

It is of the general opinion that frost is necessary before digging. Such is not the case. The Dahlia (a native of Mexico) had never known frost. What is expedient is a short resting period. During Mexico's eight months of growing season and followed then by drought the plant naturally remains dormant. Under our "artificial" method of growing we should lift the tubers by about the end of October and store in a cool cellar; a light frost upon the leaves has no bad effect. A heavy freeze is apt to send the frozen juices to the bulb and what is known as dry rot will most always set in. Dahlias are best stored in a damp cellar with plenty of fresh air. They can also be stored in barrels or boxes, but left open until all excessive moisture has left the roots. Covering to keep them from shriveling may be placed on them after January.

All Dahlias here listed are grown at our grounds at Hammonton, N. J., tried out and thoroughly rogued. Though we make no claims that varieties listed are the choice of Dahlias, we have made up this selection for the wants of our customers. Kinds and varieties as to the best is entirely psychological and we leave the matter of choice to the buyer.

Dahlia Cultural Directions

Clumps should be cut to single eye divisions. If sprouted cut the sprout within a quarter of an inch from the bulb.

They should be planted in rows of five feet apart and two to three feet in the rows. The best method is to lay the bulb flat (not stand) and cover with three inches of soil. If a row six inches deep is struck and roots planted three inches the rows can be filled in from time to time. When the plant has attained a height of about eight inches pinch out the top. This will enable the plant to sprout and give proper flowers. A second pinching may be made in early August. Not later. Disbudding of the side shoots is very essential. This will give you the fine exhibition flowers. We suggest five or six flowers to the plant. Flowers cut in the morning hold up the best. Place in a cool cellar away from draft. Slightly syringe the flowers, this will stiffen them.

In rich soil fertilize slightly. In poor soils over fertilization can hardly be accomplished. Bone meal, manure, or any good potato fertilizer is essential.

Dahlias

All stock listed are strong divisions.

The kind of roots we send out—They are grown from divisions. We do not send the small knotted pot grown roots so often used. Our roots are of good size, dependable and well grown. Our diggings are made immediately after frost and it is our aim that all stock be harvested before the stem is frozen. This assures good keeping qualities.

3 bulbs at ten rate, 25 at 100 rate. Those listed singly at prices quoted. If you wish less than three of those listed at ten rates add 3 cts. per bulb.

Queen of the Garden Beautiful. This fine yellow was grown in the prison yards in California. A close competitor of Waldhein Sunshine	9.00	
Rainbow. A most wonderful coloring, old gold and Oriental red	1.00	9.00
Rodman Wanamaker. The world's best Dahlia and if not the largest in the world, is at least thelargesst stiff stem profuse blooming dahlia; blooms are ten to eleven inches in diameter without disbudding. Color is entirely distinct; the buds are a light lemon yellow. As each petal expands the color changes chamelon like, to golden salmon with bronze suffusion (reflex, a beautiful spiral pink). A wonderful vigorous grower, with luxuriant bright, glossy green foliage. The flowers are most beautiful formed with long, irregular twisted and whorled petals, and produced freely on very long stiff stems, entirely distinct	75c each	7.00
Rosa Nell. Deep rose, very large and fine	1.50	14.00
Rose Fallon. Bronze and autumn shades. A real pretty sort	1.00	9.00

Sanhican's Blue Bird. Excellent shades of blue. Large flower, extra fine	3.00	
San Mateo. Best fancy combination of deep yellow, striped and splashed scaret. A arge full flower	1.00	
Shower of Gold. Golden bronze. Long stems. A very beautiful Dahlia. Petals of Chrysanthemum type	2.00	
Shuddow's Lavender. Lavender	3.00	
Somerset. Is a large decorative on excellent stems. Keeping qualities of the best if cut when the blooms have fully matured. Blooms freely. In fashioning this flower the genii of nature have blended the color tones in a manner that makes description difficult. But while the color somewhat varies according to weather conditions and the age of the flower, the general effect is that of salmon and old rose. As the blooms mature, the salmon changes into old rose, and like an after-thought, sometimes, there is a touch of lavender there. There is just a slight twist to the petals and irregularity in the arrayal of same, which gives the flower an air of grace and refinement that is lacking in most large dahlias. Somerset is a healthy and vigorous grower, that you will not need to spray and dust or worry lest some inssect give it a cross look. Even Diabrodica (green, black spotted lady bug)		

SOMERSET, Continued	10	100
will not touch it as long as there is something else to eat in the garden. Somerset has proved its value as an exhibition flower. Scored 90 points	1.50	14.00
Susan G. Tevis (Boston). Deep lilac flower with strong stem. Blooms profussely early and late	1.00	
Thomas Edison . Royal purple. Fine..	\$1.00 each	
Trentonian . A mammoth Dahlia of fine quality. Excellent for exhibition purposes. Colors are of the autumnal shades	\$1.00 each	
Treasure Island . Best of the Light Bronze sorts		
Excellent cut flower	3.00	25.00
Uncle Tom . Black maroon	3.00	
Valley Forge . A large purple variety on fine long stems. Excellent for exhibition. Vigorous and sturdy	2.00	18.00
Waldheim Sunshine . There are many yellow Dahlias I must confess this has been our largest in the hybrid decorative. Well known among all exhibitors	\$1.00 each	
Watchung Sunrise . Another close competitor of the above. Extremely large, though the flowers predominates in yellow it is well overlaid with a marvelous shade of old gold and pink.	\$1.00 each	
Watchung Sunset . Grand flower. Mammoth in size. Like the sun setting in the Watchung Mountains. Pink in all its gradeur ..	\$1.00 each	
Watchung Wonder . Giant exhibition flower.	Red \$1.00 each	
World's Best White . Considered by some the best white	3.00	25.00
Yellow Collose . Bright yellow	1.50	14.00

Show or Ball Dahlias

Ball Dahlias are best for roadway stands. They will endure the drafts and seldom wilt. They bloom freely.

	10	100
A. D. Livoni . Shell pink, free, early	.75	8.00
American Beauty . Red	1.00	
Bonnie Blue . A fine blue. long stems	1.00	8.00

Elm City . Bronzy yellow, suffused amber and tipped red	2.00	
Fireburst . Bright red	3.00	
Gold Medal . "Kind's Gold Medal." Of all the show Dahlias we have here is a Dahlia all by itself. The reader may recall the older variety of Gold Medal. A yellow base with markings of bronze. Ten years back we found a sport from this particular sort which proved to retain its character. The color is of a most pleasing coppery bronze. Many of these flowers are shipped to the New York and Philadelphia markets. A color always wanted by the decorator. Consult your wholesaler as to his opinion on this Dahlia. Through a misunderstanding this Dahlia was given other names as "Gold Medal De Luxe," etc. There are the three strong points why you should have this Dahlia in your collection: A most desirable color, long sturdy stems, always in demand	1.50	14.00

Rooted Cuttings

Rooted cuttings have been one of our most successful items among our Dahlia offerings. They not only give the first year the best exhibition flowers but save you many dollars by procuring at low cost the best high priced varieties. We have shipped them to almost every state in the Union and the testimonial letters received have been most gratifying.

HOW TO CARE FOR CUTTINGS WHEN RECEIVED

Unpack immediately, place in two and one-fourth inch pots or plant in shallow flats of soil. Shade for several days. Many of our customers report placing cuttings in the open field. Though this method of planting may be successful in a rainy period, one takes chances should hot, dry weather set in. Another good way when danger of frost is past is to plant in cool frames. Cheese cloth makes an excellent shade and also prevents draft from reaching the cuttings.

By this method stock will be ready in ten days and cuttings may be lifted with good soil adhering to roots. Always water well before lifting cuttings. An inexpensive way of shading in open field is to use magazine pages and placing a little soil at both ends. It is surprising how the moisture will remain under this covering.

Orders booked in rotation.

Charge orders not accepted on roted cuttings.

No cuttings will be sent out earlier than February 21st. Stock shipped only at customer's risk.

Cuttings not returnable.
